Discover the treasure hidden for 10.000 years

This is simply the purest water in the world. It is stunningly bottled. Rare and only available in limited quantities as icebergs can be harvested only 8 months of the year.

With GLACE you experiment 10.000 years of untouched purity. No other water can claim this level of purity. Born as ancient ice, Glace water offers superior hydrating qualities.

Like very few drinks Glace water is for connoisseurs that value a memorable moment. It will make you take a deep breath every time you remember GLACE water.

Simply it is the best of nature untouched for 10.000 years served at your table on a special moment from a uniquely designed bottled that aims precisely at calling attention to the **precious liquid inside.**
